# Meet Flavia... From Uganda

Flavia is a single mother of four children who all go to school. She also takes care of a younger brother. She has been running a restaurant for almost 10 years. For this loan, she is requesting 1,200,000 Uganda shillings (\$500 USD) to buy more soda, passion fruit for making juice, boxes of mineral water and bread and cakes.

She currently works six days a week and her major business challenges include seasonality and defaulters. She is aspiring to invest in used clothes and also to buy a plot of land to build her own house. She resides in a rented house and the family has access to electricity and piped water. Her monthly expenses include school fees and rent.

## This month Cascade Investment Advisors decided to focus its charitable lending efforts to an entrepreneur in Eastern Africa...

Although still rebounding from a devastating civil war in the late 1980's, Uganda has become relatively stable, prosperous and healthy. By lending to women like Flavia in Kampala, Uganda we hope to continue to help hard-working people create better economic situations for themselves and their countries.

Please join us in assisting entrepreneurs like Flavia by joining our Kiva team at "The Microlending Fund" and engaging yourself in the battle against poverty.

	Expected Repayments
May 2014	\$93.75
June 2014	\$125.00
July 2014	\$156.25
August 2014	\$125.00
