## YEN'S STORY

Yen and her family are located in Cam Thuy district, a mountainous area of Thanh Hoa province.

Yen and her husband both learned from their parents and now have over 20 years of experience working in agriculture. Chickens, corns, sugarcane trees, and buffaloes provide their family income.

Yen is planning to use this loan to buy more young buffalo. The potential income from buffalo stem from their lower maintenance cost. Additionally, Yen is able to utilize her existing rice and grass farm before selling them in the future.
